Subject: Microsoft Settlement

Dear Esteemed Justices;

I would like to voice my opinion that it is far beyond time to put a close to this matter and further litigation. The remedies to be imposed are fair and just, and pave the way for competition on a level playing field.

I beseech you to do your best to put an end to what has become an expensive (and now irrelevant, given the more open XP platform and other technological innovations recently) battle. I have confidence that Microsoft has learned its "lesson", and I hope you see the logic in closing this chapter for the sake of our economy, for I do believe, if a settlement is made, stockholders and retailers all over the country will sigh a sigh of relief that will resonate 'round the world. I think this single event would make more of a difference than any rate cut by Mr. Greenspan ever could.

Sincerely,

Wendy Willson
